APID Article Clarification

Two important words are missing from an article in the recently distributed Second Quarter April 2003 Sys Ops Update. The corrected second bullet in the article titled *APID? No, APID* is:

- The APID does <u>not</u> need to be coded for Medicaid Only cases where there is:
   1. Native Medical Health coverage, or
   2. Another type of medical coverage, or where
   3. Both parents reside in the household.
